RE: Parking Lots

To Whom It May Concern:

AL's Asphalt Paving has replaced two parking lots and 93,060 square feet of roadway for us. We have found them to be very thorough and professional in their handling of our residents.

We also had 4,950 lineal feet of curb and gutters replaced as well as 5,500 lineal feet of edge drain installed. The original roadway was installed on clay with no sub-base at all. This was dug out and replaced properly, so our road will now hold any type of traffic. We have found this pricing to be very fair and consistent and more importantly, the jobs have been done in a timely manner.

Sincerely,

A handwritten signature in black ink that reads "Ed Goodman".

Ed Goodman
